Table of Contents

VOLUME 89 (EMG & Motor Control), 1993

MAIN ARTICLES

Quantitative surface EMG of pericranial muscles. Reproducibility and variability
R. Jensen, A. Fuglsang-Frederiksen and J. Olesen (Denmark) 1
Tibialis anterior R-1 response: physiological behaviour, normative data and clinical utility in L4-L5 radicular compression
S. Pradhan (India) 10
Impaired scaling of long latency postural reflexes in patients with Parkinson's disease
D.J. Beckley, B.R. Bloem and M.P. Remler (USA, The Netherlands) 22
Changes in motoneuron excitability of masseter muscle following exteroceptive stimuli in Parkinson's disease
E. Alfonsi, G. Nappi, C. Pacchetti, E. Martignoni, R. Conti, G. Sandrini and A. Moglia (Italy) 29
The independence of premovement H reflex gain and kinesthetic requirements for task performance
D.F. Collins, J.D. Brooke and W.E. McIlroy (Canada) 35
Interaction of reciprocally induced inhibition and premotor facilitation of soleus H reflexes in humans
B.A. Stewart and J.D. Brooke (Canada) 41
Force and displacement-controlled tendon vibration in humans
P. Cordo, S.C. Gandevia, J.P. Hales, D. Burke and G. Laird (USA, Australia) 45
Magnetic coil stimulation of the human lumbosacral vertebral column: site of stimulation and clinical application
S. Chokroverty, D. Flynn, M.A. Picone, M. Chokroverty and J. Belsh (USA) 54
Latency jump of "relaxed" versus "contracted" motor evoked potentials as a marker of cortico-spinal maturation
M.D. Caramia, M.T. Desiato, P. Cicinelli, C. Iani and P.M. Rossini (Italy) 61
Neurophysiological evaluation in myasthenia gravis. A comprehensive study of a complete patient population
F.E. Somnier and W. Trojaborg (Denmark) 73
An electrophysiological method to assess the distribution of the sensory propagation velocity of the digital nerve in normal and diabetic subjects
M.R. Caccia, A. Salvaggio, E. Dezuanni, M. Osio, M. Bevilacqua, G. Norbiato and A. Mangoni (Italy) 88
Bereitschaftspotential in idiopathic and symptomatic restless legs syndrome
C. Trenkwalder, S.F. Bucher, W.H. Oertel, D. Proeckl, H. Plendl and W. Paulus (Germany) 95
H reflexes in close muscles: cross-talk or genuine responses?
C. Pérot and I. Mora (France) 104
Auditory effects on the electrically elicited blink reflex in patients with Parkinson's disease
K. Nakashima, R. Shimoyama, Y. Yokoyama and K. Takahashi (Japan) 108
Electrophysiological study of superficial abdominal reflexes in normal men
K. Satomi, T. Horai and S. Hirakawa (Japan) 113
Safety of rapid-rate transcranial magnetic stimulation in normal volunteers
A. Pascual-Leone, C.M. Houser, K. Reese, L.I. Shotland, J. Grafman, S. Sato, J. Valls-Solé, J.P. Brasil-Neto, E.M. Wassermann, L.G. Cohen and M. Hallett (USA) 120
Transcranial electric and magnetic stimulation of the leg area of the human motor cortex: single motor unit and surface EMG responses in the tibialis anterior muscle
A. Priori, L. Bertolasi, D. Dressler, J.C. Rothwell, B.L. Day, P.D. Thompson and C.D. Marsden (UK) 131
The optimal current direction for excitation of human cervical motor roots with a double coil magnetic stimulator
K.R. Mills, C. McLeod, J. Sheffy and L. Loh (UK) 138
Magnetic mapping of human cervical nerve roots: variation in normal subjects
C.M. Epstein (USA) 145
Non-invasive neuromagnetic monitoring of nerve and muscle injury currents
G. Curio, S.N. Erné, M. Burghoff, K.-D. Wolff and A. Pilz (Germany) 154
Sensitivity and specificity of diagnostic criteria for conduction block in chronic inflammatory demyelinating polyneuropathy
A. Uncini, A. Di Muzio, M. Sabatelli, S. Magi, P. Tonali and D. Gambi (Italy) 161
Repetitive nerve stimulation of anconeus in the assessment of neuromuscular transmission disorders
R.P. Kennett and P.R.W. Fawcett (UK) 170
Evidence that alterations in presynaptic inhibition contribute to segmental hypo- and hyperexcitability after spinal cord injury in man
B. Calancie, J.G. Broton, K.J. Klose, M. Traad, J. Difini and D.R. Ayyar (USA) 177
Bereitschaftspotential: is there a contribution of the supplementary motor area?
K. Bötzel, H. Plendl, W. Paulus and M. Scherg (FRG, USA) 187

Effect of aging on the spatio-temporal pattern of event-related desynchronization during a voluntary movement
P. Derambure, L. Defebvre, K. Dujardin, J.L. Bourriez, J.M. Jacquesson, A. Destee and J.D. Guieu (France) 197
Lack of prolonged cerebral blood flow change after transcranial magnetic stimulation
T. Hamano, R. Kaji, H. Fukuyama, N. Sadato and J. Kimura (Japan) 207
Physiological basis of voluntary activity inhibition induced by transcranial cortical stimulation
A. Uncini, M. Treviso, A. Di Muzio, P. Simone and S. Pullman (Italy, USA) 211
Magnetic stimulation in the determination of lumbosacral motor radiculopathy
T.K. Banerjee, M.S. Mostofi, O. Us, V. Weerasinghe and E.M. Sedgwick (UK) 221
The effect of transcranial magnetic stimulation on median nerve somatosensory evoked potentials
T. Kujirai, M. Sato, J.C. Rothwell and L.G. Cohen (UK) 227
Long-latency reflexes, somatosensory evoked potentials and transcranial magnetic stimulation: relation of the three methods in multiple sclerosis
R. Michels, K. Wessel, S. Klöhn and D. Kömpf (FRG) 235
Comparison of recording characteristics of monopolar and concentric needle electrodes
N. Kohara, R. Kaji and J. Kimura (Japan) 242
Muscle contractile properties by surface electrodes compared with those by needle electrodes
T. Fujimoto and H. Nishizono (Japan) 247
Myo-axonal ephaptic responses and their F waves in case of chronic denervation
G. Roth (Switzerland) 252
Stretch reflexes of individual parkinsonian patients studied during changes in clinical rigidity following medication
R.J. Meara and F.W.J. Cody (UK) 261
Movement-related potentials associated with single and repetitive movements recorded from human supplementary motor area
A. Ikeda, H.O. Lüders, R.C. Burgess and H. Shibasaki (USA, Japan) 269
Vibration-evoked sensory nerve action potentials derived from Pacinian corpuscles
T. Hamano, R. Kaji, A.F. Diaz, N. Kohara, N. Takamatsu, T. Uchiyama, H. Shibasaki and J. Kimura (Japan) 278
The ability of MUP parameters to discriminate between normal and neurogenic MUPs in concentric EMG: analysis of the MUP "thickness" and the proposal of "size index"
M. Sonoo and E. Stålberg (Sweden) 291
Muscle fiber conduction velocity in amyotrophic lateral sclerosis and traumatic lesions of the plexus brachialis
J.H. Van der Hoeven, M.J. Zwarts and T.W. Van Weerden (The Netherlands) 304
Stretch responses to ankle rotation in multiple sclerosis patients with spasticity
E. Toft, T. Sinkjær, S. Andreassen and H.J. Hansen (Denmark) 311
Reciprocal inhibition of the H-reflex in the forearm: methodological aspects
P. Fuhr and M. Hallett (USA) 319
Activation of carotid baroreceptors inhibits spinal reflexes in man
H. Rau, S. Brody, C.H.M. Brunia, E.P.J. Damen and T. Elbert (Germany, The Netherlands) 328
Impairment of central motor conduction in diabetic patients
G. Abbruzzese, A. Schenone, G. Scramuzza, C. Caponnetto, B. Gasparetto, L. Adezati, M. Abbruzzese and G.L. Viviani (Italy) 335
Neurobiological effects of extensive transcranial electromagnetic stimulation in an animal model
S.A. Counter (USA, Sweden) 341
Principles of digital sampling of a physiologic signal
J. Nilsson, M. Panizza and M. Hallett (Italy, USA) 349
Frequency analysis and duration of motor unit potentials: reliability and diagnostic usefulness
G. Pfeiffer and K. Kunze (FRG) 365
Comparison of two techniques to measure the motor nerve conduction velocity distribution
M.W.M.M. Ruijten, H.J.A. Sallé and R. Kingma (The Netherlands) 375
Fasciculation-myokymic activity and prolonged nerve conduction block. A physiopathological relationship in radiation-induced brachial plexopathy
A. Esteban and A. Traba (Spain) 382
Sensory nerve findings by tactile stimulation of median and ulnar nerves in healthy subjects of different ages
G. Caruso, J. Nilsson, C. Crisci, M. Nolano, R. Massini and F. Lullo (Italy) 392
Increased dependence upon visual information of movement performance during visuo-motor tracking in cerebellar disorders
F.W.J. Cody, B. Lövgreen and W. Schady (UK) 399
Abnormal EPSPs evoked by magnetic brain stimulation in hand muscle motoneurons of patients with amyotrophic lateral sclerosis
F. Awiszus and H. Feistner (FRG) 408
Variability of motor potentials evoked by transcranial magnetic stimulation
L. Kiers, D. Cros, K.H. Chiappa and J. Fang (USA) 415
Topography of the inhibitory and excitatory responses to transcranial magnetic stimulation in a hand muscle
E.M. Wassermann, A. Pascual-Leone, J. Valls-Solé, C. Toro, L.G. Cohen and M. Hallett (USA) 424

SHORT COMMUNICATIONS

F-wave normative studies in different nerves of healthy subjects
M. Zappia, P. Valentino, L.P. Marchello, M. Paniccia and P. Montagna (Italy) 67

Central motor conduction time in neurological decompression illness
A.W. Murrison, S. Mostofi, T. Banerjee and E.M. Sedgwick (UK) 434
Posterior tibial and sural nerve somatosensory evoked potentials: a study in spastic paraparesis and spinal cord lesions
C.M. Aalfs, J.H.T.M. Koelman, F.E. Posthumus Meyjes and B.W. Ongerboer de Visser (The Netherlands) 437
Sudomotor skin responses following nerve and brain stimulation
P.M. Rossini, R.J. Opsomer and P. Boccasena (Italy, Belgium) 442
Sudomotor skin responses to brain stimulation do not depend on nerve sensory fiber functionality
P.M. Rossini, R. Massa, G. Sancesario and P. Boccasena (Italy) 447

TECHNICAL NOTES

Artifact reduction in magnetic stimulation
C. Jakob, J. Mathis, T. Weyh and A. Struppler (FRG, Switzerland) 287
Where to record motor activity: an evaluation of commonly used sites of placement for activity monitors
J.J. Van Hilten, H.A.M. Middelkoop, S.I.R. Kuiper, C.G.S. Kramer and R.A.C. Roos (The Netherlands) 359

BOOK REVIEWS

Neuropathies périphériques: polyneuropathies et mononeuropathies multiples
by P. Bouche and J.M. Vallat 204
Clinical applications of magnetic transcranial stimulation
by M.A. Lissens 204
Parkinson's disease: from basic research to treatment. Advances in neurology, Vol. 60
edited by H. Narabayashi, T. Nagatsu, N. Yanagisawa and Y. Mizuno 454

Letters to the Editor 452, 453

Announcement from the Publisher 205, 290, 363, 455
